

BLUDGEONS

Will Be Used as Weapons Against "Teddy" on Friday

WHEN COMMITTEE MEETS

Will Vory's Make Overtures for Peace Toward Foraker?

Expected That a Divided Delegation from Ohio Will Go to Convention.

Washington, Dec. 4.—The Republican National committee will meet here Friday. It is expected that in addition to the election of a chairman and the selection of the convention city and date, the Taft-Foraker scrap will be dragged into the arena and the forces for and against the President will "get busy" with bludgeons. The fact that Arthur I. Vorys, Taft's political manager, is in town, adds to the interest. It is whispered that Vorys may be persuaded to make tentative overtures for peace to Foraker, or Foraker's friends, in order to smooth the ground for the war minister's Ohio campaign, but if this program is seriously contemplated by Vorys, he is mum on the subject.

Taft's friends admit that Foraker's presidential candidacy is likely to cause a disastrous split in the Buckeye State, if not a divided delegation at the national convention, and they would welcome almost any arrangement which would restore harmony in Ohio. The leaders in the fight for the convention are Chicago, St. Louis, Kansas City and Denver. The anti-Roosevelt men will make an effort to oust Harry S. New from the chairmanship.

The consensus of opinion among the members of the Republican national committee who have arrived is that Kansas City will get the convention.

COURIERS HURRY TO VERIFY RUMOR

Panama, Dec. 4.—Couriers are on the way to Jurado, on the Colombian Panama frontier, to investigate the rumors that five hundred Colombian soldiers have seized the town and imprisoned the Panama authorities. Jurado is without a telegraph.

INDIGNATION

AT ACTION OF JUDGE IN DISCHARGING BRUTAL NEGRO AT CHICAGO.

Led to Rearrest and the Case Will be Reinstated at Prosecutor's Request.

Chicago, Dec. 4.—Indignation caused by the action of Judge Scovel of the municipal court, in discharging Wm. Evans, a negro, accused of attacking Anna Gratek, on the plea that he was drunk and didn't know what he was doing, has resulted in an order for the re-arrest of the negro, who will be given a hearing before Judge Cleland.

The case against Evans was reinstated at the request of assistant state's attorney Cornwall, who prosecuted him in the first instance. A capias was issued by Judge Cleland, and after searching for Evans yesterday without success, the hunt is being continued today. Judge Scovel's action in releasing the negro has been denounced as "outrageous" and appalling by bench, bar and clergy alike.

WOMAN HURLS BOMB AND DIES HERSELF

Moscow, Dec. 4.—An unknown woman threw a bomb under Governor General Herschelmann's carriage in the main street of Moscow today, and was herself fatally injured by the explosion. Herschelmann escaped uninjured, but his carriage was blown to pieces and the coachman badly hurt, and both horses were killed.

BYERLEY BIDS FOR \$20,000,000 OF THE NEW ISSUE OF PANAMA BONDS

SAMUEL BYERLEY

NEW YORK, Dec. 4.—Samuel Byerley, who, unknown to financial fame at that time, bid on and was allotted \$5,800,000 of Panama bonds in 1906, appeared yesterday as a bidder for \$20,000,000 of the new issue of Panama bonds. This bid, it is thought, is for the largest amount of the bonds made by any one except the National City Bank, which made a bid for the entire issue of \$50,000,000.

SUNDAY THEATRES IN NEW YORK WILL BE MERE MEMORIES

Sweeping Decision by Supreme Court Makes Any Kind of Exhibition Unlawful

Mayor Johnson of Cleveland Clamps the "Lid" Tight as to Sunday Closing in That City and Many are Surprised.

New York, Dec. 4.—The Sunday theater in New York City will be a thing of the past if the decision rendered by Justice O'Gorman in the Supreme court Tuesday is enforced.

In a sweeping opinion the justice denounced as clear violation of the law every possible form of Sunday stage entertainment under whatever title.

There is no appeal from this decision and relief, if any is obtained, must be found in new legislation.

The opinion was rendered in confirming the report of a referee in the test case of William Hammerstein, involving the question of revocation of his license for the Victoria theater on a charge of having violated the law.

Cleveland, O., Dec. 4.—The "lid," a stranger to Cleveland for more years

than the memory of man runneth not to the contrary, is to be clamped on tight next Sunday by command of Mayor Tom L. Johnson.

The order is being passed to proprietors of saloons and cafes, as well as to the proprietors of resorts of the tenderloin, by Police Chief Koehler's captains and lieutenants. Consternation is apparent in the downtown cafes, many of which, boast that no key has ever been turned in the locks of their doors.

The change of front on the part of the administration, no small portion of the strength of which in the recent campaign was due to the liberal element's fear of Congressman Burton's Puritan training, has astounded the liberals. Mayor Johnson refused to say a word, exhibiting surprise when told of Chief Koehler's orders.

UNEXAMPLED FEAT OF HEROISM WAS RESCUE OF 600 SOULS

Halifax, N. S., Dec. 4.—The Admiralty Office will at once begin an investigation to place the blame, if any, for the wreck of the Canadian Pacific Line steamer Mt. Temple, which struck the La Have iron-bound ledges during a thick snow storm early yesterday while bound from Antwerp to St. John, N. B. The indications are that Mt. Temple will be a total loss.

The saving of all the Mt. Temple's passengers, more than 600 in number, under conditions dangerous to the rescued and rescuers alike, is regarded as a feat unexecuted in the annals of marine disasters in the North Atlantic.

When the ship struck the rocks the hundreds of immigrants, among whom were more than 200 women and children, were thrown into a panic. The officers and crew had difficulty in making the foreigners understand that there was no immediate danger, and when daylight came and the storm cleared the panic was over.

When the steamer struck the seas swept over her, and for hours the passengers stood waist deep in water. All suffered terribly from the cold. As soon as order was restored a line was taken ashore from the vessel, and by means of baskets the women and children were transferred to the island. The fishing schooners Hazel Virginia and Guide and the tug Trusty assisted in the rescue, together with the boats from the mainland. Within three hours all were landed safely upon the island. The male passengers were taken off in fishermen's dories.

Late in the afternoon the tug Trusty took 150 of the foreigners to Bridgewater, and these, after being supplied with food and dry clothing, were brought to Halifax on a special train.

The immigrants are of different races, including Austrians, Poles, Galicians and Russians. The Mount Temple has 6,000 tons of cargo, a large portion of which is glass, hardware, &c., for Montreal, Toronto and Western Canada firms.

Milbury, Mass., Dec. 4.—The following report was given out today by Dr. C. A. Church, regarding the condition of Mrs. Louisa Taft, the mother of Secretary Taft: "Mrs. Taft is sinking slowly but steadily. She is now unconscious. Condition is hopeless."

DEFENDER SAFE

Spokane, Wash., Dec. 4.—The steamer Defender, which struck a reef of rocks while crossing Lake Couer D'Alene Monday night, reached Mica Bay yesterday with all passengers on board. The steamer grounded on a reef Monday evening and lay there all night, whistles of distress being unanswered, as no boats dared put out in the dense fog.

BOYCOTT

OF BIG HATTER BY A LABOR UNION AND IT LEGALITY

Is the Question Now Before the Highest Tribunal of the United States.

Washington, Nov. 4.—For the first time in the history of the Sherman anti-trust law its provisions have been invoked before the highest tribunal in the country against organized labor.

In a case argued today the Supreme court of the United States is asked to award damages to Deitrich E. Loewe, hat manufacturer of Danbury, Conn., who alleges that he was made the victim of a boycott by the union haters of America.

The brief filed by his attorneys, one of whom is former Assistant Attorney General James B. Beck, sets forth reasons why the members of the union should pay three times the amount of damages the boycott wrought. It is asserted that the boycott was a conspiracy in restraint of trade and interstate commerce, under the anti-trust law. The lower courts had decided that this was not a violation of the act, hence the appeal to the Supreme court of the United States.

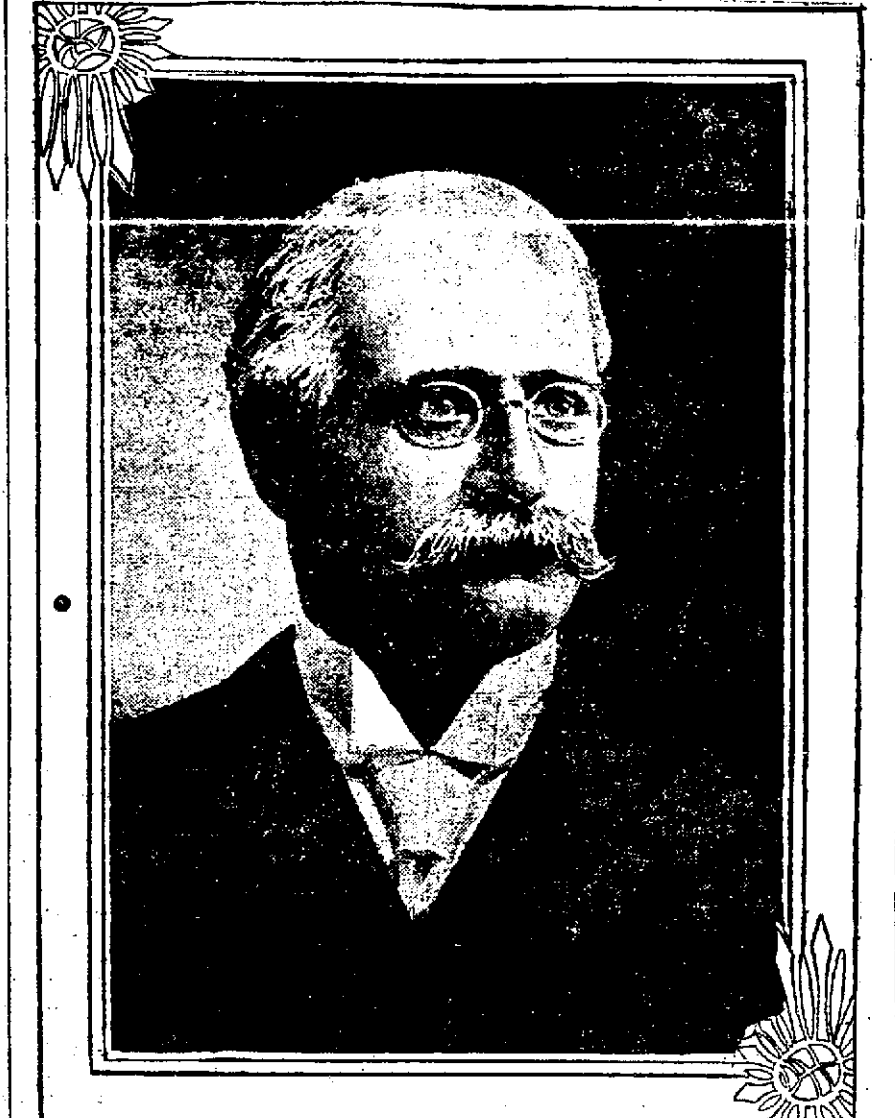

"The ingenious suggestion of the defendants that only those can combine to restrain interstate trade who are engaged in it," said the manufacturers' attorney, "is but an indirect method of suggesting to the court that an invidious distinction be drawn between combinations of labor and combinations of capital and that the former be given authority to do which the other class is forbidden to do. The federal courts have long since repudiated any such distinction, so hostile to the spirits of our institutions."

NAVY STANDS THIRD OF WORLD SEA POWER.

VICTOR HOWARD METCALF

WASHINGTON, Dec. 4.—The annual report of the Secretary of the Navy is a public document deserving the careful study of every one to whom the efficiency and development of the nation's first line of defence is a matter of highest consideration. Mr. Metcalf has discussed in a concise and convincing manner naval conditions and naval progress, and at this critical period of transition in fleet policy and fleet needs his official conclusions should do much to crystallize a somewhat wavering public opinion on the vital necessities of the navy.

HUNDRED AND SIX YEARS OLD SON IN PRISON, DESTITUTE MRS. EMELINE ALBERT LIES

Found in the Hut She Calls a Home While Her Son Could and Would Provide if Free

ADVOCATE MAN DEVELOPS A SAD STORY That Would Almost Bring Tears to the Eyes Which Never Shed Them—Advocate Immediately Takes Action in the Matter

Slowly freezing and starving to death, lying in bed with all her ragged clothing, no food for two days, no coal, and the house so cold one could see his breath, is the absolutely desolate condition of Mrs. Emeline Albert, 166 years old, the oldest woman in Newark. A terrible cold has settled on her lungs and she coughs almost continually, and no doctor is there to attend her because there is no money to pay a doctor. The neighbors take no interest in the case, and her only son, George, has lain in the city prison since last Sunday because he had no money to pay his fine for drunkenness.

"I am tired," she said to the Advocate reporter who discovered her terrible plight. "Oh, I'm tired of it all, I want to die. I'd rather die than stay here and suffer. George is good to me; he takes good care of me and nurses me at night. He wouldn't let me be cold and hungry if he knew, and if he was out of jail. He is a plavser and works hard, but he has big faults. Last Sunday morning he was cold and he went to town to get a little coal, so that maybe I could keep warm. I'm not now, but I'm all the time, but he and a few drinks too many, and then he was in jail. He didn't have any money to pay his fine, and he was in jail for three days. DOCTORS AGREE ON HYPNOTISM

AS A CURE FOR DISEASE AT A MEETING OF PROMINENT PHYSICIANS.

Dr. C. O. Probst and Others Think Mental Suggestion is Greatly Underrated.

Columbus, Dec. 3.—Mental suggestion has much to do with the causes and cure of disease, according to instances related by members of the Columbus Academy of Medicine in a discussion following an address on "Psychology and the Practitioner," made Monday night by Rev. George B. Cutten, pastor of the First Baptist church.

Dr. J. F. Baldwin declared he was convinced that in hysterical and nervous diseases and some mild forms of organic diseases suggestion could do much to aid a patient toward recovery. He said he believed that hypnotism, mesmerism and faith cures might do much, merely because they instilled in the patients a hope of being cured.

Dr. C. O. Probst related that he once knew of a father and his son practicing in a certain city. The father had an established reputation. One patient seemed to arrive at relief from any course of treatment the son could give him, and decided to change to the elder physician. The latter followed out precisely the line of treatment the younger man had given, and the patient recovered rapidly. Confidence on the part of the patient appeared to be responsible.

Another instance was related of a patient in great pain who demanded a dose of morphine as large as had been given him. The physician measured out twice as much water and the patient took it, thinking it was morphine. It was asserted that in a few moments the patient declared he was entirely free from pain.

Rev. Mr. Cutten took the view that cures by suggestion deserve a more general recognition than is given them. He declared that hypnotism was not so much in the present day and newer view view one man's placing his mind in control of another man's mind, but rather in compelling the hypnotized person to control his feelings by the force of his own mind.

All enjoyed the day together and did justice to the dinner of turkey and accompaniments. Dr. Winter favored the company with a piece of music of his own composition, "Be Cheerful," which was much appreciated.

Prof. Harvey Orr teaches school here.

School was dismissed for Thanksgiving until the Monday following.

The school building has been improved inside and out. The old desks which accommodated two pupils each, have been replaced by new single ones. The coat of paint which was not on last summer improves the outside appearance. The ancient beech tree which stood near the corner of the school house and was in danger of falling in time of storm, was cut down and hauled away.

Mr. John Davis, agent, bought a quantity of ash trees in this vicinity. The logs will be shipped to Columbus for use at the penitentiary.

Wesley Jourdan has bought the Thomas George farm and will leave Oakthorpe about April 1.

Owing to want of space the large number of Thanksgiving marriages and births must be left out, for these crops we challenge the world.

Will Winegardner and Sam Lones were business callers in Lancaster Saturday.

Charles Spohn and wife were at New Lexington Saturday.

Rev. E. A. Young preached at Drumm's church Sunday morning.

Marion Lones, who has been absent in Oklahoma all summer, has returned home.

John M. Gast the pioneer music teacher of Prospect, while giving a lesson at William Clum's Thursday, his pupil clanked through the window and noticed that his horse had disappeared. Upon close observation it was discovered he had failed to tie it when he blanketed the animal. The horse had started towards the stable door, one wheel hit a post, and the cart turned over, doing some slight damage to the top and running gears.

The venerable John M. was scheduled to take his Thanksgiving dinner at the Peters residence in Oakthorpe. The wreck however made this impossible to make the connections and the telephone wires were kept humming for the space of an hour but could render no very good assistance to the waiting guests at the other end of the line.

IN GOD WE TRUST

(E. M. P. Brister.)

I am at a loss to understand whence the proposition to strike from our coins the words: "In God We Trust" emanated. The Supreme court has never declared those words unconstitutional; or ordered them stricken from the coins. The President should not be blamed for the disappearance of that grand motto from our coinage, for he has no jurisdiction in the matter. The Constitution of the United States declares that "The Congress shall have power to coin money and regulate the value thereof" and no other person or body has that power.

Congress has never to the knowledge of the public, declared that we no longer "trust in God," as a nation; or that, while still trusting in God, we no longer consider it expedient to declare so, on our coinage.

Still, we are informed that those grand words will no longer appear on our coinage. Who ordered them stricken off? By whose authority was it done? Has somebody blundered; or has somebody exceeded his power? Should not the great American people have been taken into confidence, upon so important a matter? We have been told, upon presumably high authority, that there is no authority in law for placing those words upon our coin; and that the retention of them there is sacrilegious. So! Technically, the first proposition may be true; and practically, the sacred motto may be the subject of sacrilegious jests. But, what of that? Many things are done, by common consent, as being fitting and appropriate, without formal action by law-maker or law-expounder; and, there is nothing so sacred and holy that it may not be made a jest of. Shall it therefore be abolished?

Has this greatly favored nation been making a mistake, in all the years of its glorious history, in trusting in God and in avowing that trust, not only upon its coinage, but in every other way? Whose conscience is hurt by such a declaration? Not the Jew nor the Gentile; not the Brahmin nor the Buddhist; not the Mormon nor the Mohammedan; not the Confucian nor the Christian—for they all trust in God.

Were Thomas Jefferson, John Hancock, Samuel Adams and all the rest of that immortal band, mistaken when they inscribed those letters of living light in the Declaration of Independence: "And, for the support of this Declaration with a firm RELIANCE (TRUST) ON THE PROTECTION OF DIVINE PROVIDENCE, we mutually pledge to each

other our lives, our fortunes and our sacred honor!"

Was Benjamin Franklin, the greatest mind of the American Revolution mistaken, when, amid the turmoil and chaos of the first American Congress, he offered a resolution that prayer should be made to Almighty God, as the only means of restoring order and harmony to that chaotic body? Was the immortal Washington mistaken, when he knelt in prayer to God, amid the ice and snow of Valley Forge? Was the matchless Lincoln right, through all the blood and tears of the civil war, except when he leaned his human heart upon the great heart of the God of the Universe? Why are Thanksgiving proclamations issued, by each state and by the general government, returning thanks to Almighty God, if we are no longer dependant upon Him and no longer trust Him; or are no longer willing to have our coinage declare our trust in Him?

Shall our Declaration and our history be rewritten and all obnoxious reference to Deity be stricken out, to please this mysterious and unknown somebody, who no longer wants "In God We Trust" to appear upon our coins? Shall we abolish our state and national Thanksgiving, because they imply trust in Almighty God? Shall we carefully expurgate from the biographies of Washington and Jefferson and Franklin and Lincoln and all the rest of that glorious host, all allusion to their trust in God, because it appears to be offensive to a mysterious some one—no one knows who?

In a word, shall we now forsake and cease to acknowledge that God who has blessed us so richly and led us through such a wonderful history, of centuries, to the proud and happy eminence we now possess? That God, who went before us at Plymouth Rock and at Valley Forge and at Appomattox—blessing and protecting us and making us the greatest nation of the earth, because we trusted in Him? Do we not, as a nation, need Him now, more than ever before, in all our wonderful and glorious history? Or, knowing that we need Him now more than ever before, are we ashamed to confess it? Are we ashamed to say, to all the nations of the world, "In God We Trust!"

Men's Regal Shoes

The full, round toe, pronounced outside "swing" and other shapely lines of the Chalmer model guarantee its popularity with men who want a shoe for all around service, and at the same time demand the element of style in their footwear. This model has the characteristic "snap" of a college style. The vamp is cut from Black King Calf, especially selected for flexibility, firmness, fine finish and wearing qualities. The top is of Matt Calf. The sole of Oak-Bark Tanned leather has an extension edge and a broad heel of walking weight. Lining of sail duck, inside trimmings of fine Tan Kid and the upper stitching of Japanese silk add to the appearance and durability of the Chalmer.

Only the immediate relatives of the contracting parties were present.
Mrs. Atkinson is a young lady of charming personality, and is very popular in musical circles. Dr. Atkinson is the son of Joseph Atkinson, of Pataskala, and is a promising young physician of Millersport. Mr. and Mrs. Atkinson will be at home to their friends at Millersport, O., after December 18.

HUNGRY AS A BEAR AND CAN'T EAT

If, When Mealtime Comes, You Suffer From a Yes-Not Kind of Hunger You're a Dyspeptic.

How to Cure All Stomach Troubles.

A good many people get mad when you tell them they've got dyspepsia, but way down deep in their stomachs they know they've got it.
"I'd love to eat it, but I can't," is one kind of dyspepsia.
"I hate to think of it," is another kind. There are thousands of people today who hate their meals, and love them at the same time. They haven't that fine empty-hungry eat-everything-in-sight kind of feeling which goes with every good strong healthy stomach. That's because they have dyspepsia. And then there are others whose mouths don't water at meal time or at any other time. They sit at the table and go through the motions, only because it's time to eat. These people, too, are dyspeptics.
Every possible kind of stomach trouble can be cured by taking something which will just take right hold of all the food in your stomach and digest it alone without the help of the stomach, and let the stomach take a rest.
Stuart's Dyspepsia Tablets do this very thing. They are composed of the best digestive known to science, and are absolutely safe. One ingredient alone of one of these tablets will digest 3,000 grains of food! These tablets do exactly the work that a good strong healthy stomach does.
Stuart's Dyspepsia Tablets cure all cases of dyspepsia, indigestion, burning or irritation, loss of appetite, bloating, brash, belching, aversion to food, fermentation and gas on the stomach.
Stuart's Dyspepsia Tablets will make you feel "good" before and after each meal, and make your stomach strong and healthy again. They will make you happy.
Send us your name and address today and we will at once send you by mail a sample package, free. Address P. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.
Stuart's Dyspepsia Tablets are sold at every drug store for 50c a box.

The ladies of Plymouth Congregational church will give a chicken-pie supper and Christmas sale December 7 from 1:30 to 8 p. m. Supper 25c.

NO INCENTIVE TO SAVE
Savings Depositors Are Honest They Must Pay a Premium For Laying Aside For Rainy Day.
R. W. Firestone of Lisbon, representing the State Bankers' association, told the Tax Commission of Ohio, not long since, that the present tax laws put a premium upon perjury. In support of his argument for a more equitable system of taxation, Mr. Firestone said:
"The municipalities in Ohio are taxed almost beyond the point of endurance. The rates for Ohio range very generally from 2 to 4 per cent, and I recall that in my city of Wellsville we have a tax rate of 4.3 for the coming year. Now, what does the average person who accumulates a little capital do with it. As a rule he puts it in a savings bank. The savings bank sometimes pays 3 per cent, sometimes 4 per cent.
"What is the condition of the taxpayer in the city of Wellsville who has accumulated a little property and put it in a savings bank? My opinion is that the man who gets 3 per cent and has to pay 4.3 per cent in taxes, is better off not to have money. He is behind because he must pay taxes upon this fund. Well, what is the necessary result of that? It seems to me to be a premium on perjury. The aver-

age taxpayer becomes a perjuror. He is bound to do it, with conditions like that, to pay a decent regard to his own existence. That is not, however, the lamentable effect. A more serious effect is the result upon the savings habit among the people. Now, economists will agree there is no more hopeful tendency in all banking business than the savings habit which it encourages. It makes a good citizen out of the man who saves. He becomes interested in our government institutions, because he looks to them to preserve the rights of property. He has property interests to preserve, and he becomes more and more an example of thrift, laying by savings for the rainy day. Now, if conditions like the present continue, what will be the result? The incentive to save is lost. You save the money only to have to pay it out in taxes. You pay out more money in taxes than you get in return for these investments. The whole incentive is lost. How does that affect the state? Well, the state simply has an army of dependent people to look after because they can not look after themselves, for the incentive to the accumulation of money is removed.

The general principle is that the burden on the profits of industry instead of on the profits of exchange. An apportionment of the state tax on the basis of local revenue would place the burden on the profits of exchange where it belongs.

ELECTION OF FORAKER'S SUCCESSOR

Akron, Ohio, Dec. 4.—Senator N. O. Mather has sent to the Ohio Law Reporter and Ohio Law Bulletin an opinion as to a question of constitutional law to the effect that a successor to Senator Foraker, whose term expires March 4, 1908, should be elected by the present general assembly at its coming session. He holds that under the present constitution as amended the next legislature cannot meet until 1910.

He has based his opinion on a decision of the New Hampshire supreme court in a similar election in 1881.

The publication of this opinion by Mather at the present time is significant that Mather belongs to the Dick following and present legislature would likely be more favorable to Foraker than the next one.

WHO ASSAULTED GLASS MEN AT
UTICA BOUND OVER TO
COURT.

Thirty Some "Uticians" in the United
States—News From Washington
Township's Capital.

Utica, O., Dec. 4.—The striking glass men who were arrested on a charge of assault on Messrs. Abbott and Teague of the Utica Glass company, on Friday night, Nov. 15, stood trial in Mayor Bricker's court Monday morning with Prosecutor Fitzgibbon for the State and Smythe & Smythe for the defense. W. F. Somers and Otto Gooding were bound over to the grand jury and all the others were acquitted on account of insufficient evidence.

A Sunday paper in Utica, N. Y., is preparing a special feature which will contain photographs of the principal streets and buildings and a short description of each of the thirty odd Uticians in the United States. Request has been made of parties here to furnish information and photographs for this Utica's part of the edition.

The prospects for the removal of the Utica mill dam have become very remote as Mr. Hulshizer estimates his damages at \$2,500, which is more than the petitioners feel that they should pay.

On Thanksgiving day Alfred Montross, who runs a cigar store in the Savings bank building, was arrested on a charge preferred under the Beall law of keeping a place where liquors were brought and dispensed as a beverage. A hearing was set for Thursday at 10 a. m. in Mayor Bricker's court.

Among those who spent Thanksgiving vacation in town were Messrs. Donald Kirkpatrick, Harvey Thacher, George Aisford, Rex Sperry, Ralph Kempton, Raymond Selby and Stanley Sperry and Misses Lucy Brinkerhoff and Alice Adams.

R. T. Brinkerhoff, Reelof Brinkerhoff, Robin Kirkpatrick and Knowlton Aisford attended the Thanksgiving football game at Columbus between O. S. U. and O. W. U.

Rev. J. C. Glover now has revival meetings in progress at the Presbyterian church at Homer and much interest is being taken in them by the people of that village.

Mr. and Mrs. C. W. Jewell entertained at Thanksgiving dinner Mr. and Mrs. Ralph Jewell, Mrs. Belle Johnson and Messrs. Sterling and Hal Johnson of Mt. Vernon, Mrs. J. F. Irwin, Miss Jane Irwin, Arthur Irwin, Mrs. Clara Moore, and Miss Mary Moore of Newark, and Mrs. Thrall-Kill, Mrs. McEwen and Miss Lucille McEwen.

The Utica Glass company considered starting this week but owing to the fact that the market price of window glass took a big drop and the inability of the workmen to see how they could go to work under the Columbus sliding scale, everything is at a standstill and there is no prospect of a start this week.

MR. HAGMEIER WILL RETURN TO THIS CITY

Six years ago Mr. George J. Hagmeier was one of the most successful grocers in the city. His store, the Pittsburgh Cash grocery, was one of the best known in Licking county, but Mr. Hagmeier, receiving an excellent offer from one of the largest coal companies in the state of Pennsylvania, sold his interests here and moved away. For six years he has acted as purchasing agent for the coal company with his headquarters in Pittsburgh.

But, being an experienced groceryman, he wanted to enter the business again and he has returned to Newark. His new store, which will be known as the Pittsburgh Cash grocery, will be located at 20 West Main street, in the room formerly occupied by the Wolf Clothing company, will be opened to the public Saturday, December 14. The room he will occupy will be remodeled into one of the most modern kind for grocery purposes, and will be stocked with up to date staple and fancy groceries, produce and smoked meats. In fact it will be one of the most modern and elaborate stocks of the kind in the city.

A competent force of clerks will be employed and every possible thing will be done to make the store the leader of its kind in the city. Mr. Hagmeier is well known to Newark people after his residence of six years in the city, and they will be glad to welcome him back, for a groceryman who knows his business is appreciated by the housekeepers. The opening of the store will be on Saturday, December 14, and all the old friends and acquaintances are invited to call and inspect the stock.

Almost his entire life has been spent in his chosen business, and his knowledge of the business enables him to purchase his stock at the lowest possible market price and allow him to sell to his customers at a decided saving on many different things.

In order to save his customers as much trouble as possible both telephones will be installed, and over the phone will receive careful attention. Prompt delivery will be made of all orders, and everything will be done to make the Pittsburgh Cash grocery a model store in every respect. Cleanliness will be a special feature and will be insisted on by the proprietor. Mr. Hagmeier appreciates the fact that clean room, clean clerks and clean stock are things very much appreciated by housewives, and it is to them he caters.

The "clean store" will undoubtedly be successful under his careful management and his many friends wish him every success in this venture.

could get no more, and if the fire went out, she would probably freeze. It is tiresome for her to lie in bed all the time, for she is a woman with the use of all her faculties, but as the chill air reaches to the marrow of her bones, she is forced to crawl under the covers for warmth. A little dog is all she has for company, while her son is forced to stay in jail to satisfy the law. She is often sick at nights, and her boy will sit for hours and care for her to the best of his ability, but since his enforced detention the long hours of the night are a horror to her, and she dreads to see them come.

"Maybe I'll die soon, and then I won't suffer any more," she repeated. "I've lived so long that I'm all worn out now, and there wouldn't be any more suffering for me. Once I was young like you, and the world was then a pretty place, but that is long ago, long, long ago. Why, I remember when I used to bake pies for the soldiers, and I remember when there used to be Indians around here."

And just for a moment the wrinkled old face lit up as the reminiscences of her girlhood days passed before her brain, a kaleidoscope of the past. "I want George," she sobbed. "Why won't they let him come to me?" And when promised by the reporter that her son would be with her by night, she sobbed as though her heart would break. "Thank you, oh, thank you so much, maybe he can get some coal some place, too; I'm so cold now," and she shook as with the palsy as a particularly strong gust of wind made the door rattle and sent a chilling draft through the broken window.

The Advocate, always anxious and ready to help the needy, has taken charge of her case. Her boy will be returned to her, and the coal will be sent. Good, wholesome food and clothing will find its way to her door as the people of Newark learn of her case, probably the most pitiful and absolute case of destitution in the city. The happy Thanksgiving time, and the cheerful spirit of Christmas, that is in the air means nothing to her now, but maybe, after the proper care has been taken of her, the worn old heart will beat again with the same cheerful fervor of the long ago, and maybe, she will find the old world isn't such a bad place after all.

NAVY'S BIG CATERING TASK.

How the Pacific Battleship Squadron Will Be Fed.

The navy department has undertaken entering on a magnificent scale. It is arranging the feeding of the battleship squadron which sails in December for the Pacific, and the magnitude of the task is evident when it is noted that each of the sixteen battleships in the squadron has a complement of about 30 officers and 800 men and each of the six torpedo boats 6 officers and 70 men, making a grand total of more than 18,700 men to be fed for five months, says Charles A. Sidman in Harper's Weekly.

There will be more than 6,500,000 pounds of provisions of various sorts, not counting those articles that come by the dozen, gallon and can. Besides the different kinds of food there will be quantities of fruit, extracts, eggs and table delicacies.

Those who do not know would be greatly surprised to learn what the usual fare of the sailor consists of, and the articles that are being purchased for this cruise are only a fair sample of the rations served.

The galley cooks will certainly make out a very good bill of fare with the following list of provisions—1,200,000 pounds of spring wheat flour, 20,000 pounds of oatmeal, 61,000 pounds of yellow cornmeal, 25,000 pounds of cocoa, 20,000 pounds of prunes, about 475,000 pounds of canned peaches and other canned fruit. There will be plenty of meat, both fresh and salted, and they will have no trouble in disposing of 1,900,000 pounds of fresh beef, 700,000 pounds of mutton, 50,000 pounds of tinned ham, 150,000 pounds of salt pork, 100,000 pounds of tinned corned beef, 50,000 pounds of bacon, 300,000 pounds of smoked hams, 15,000 pounds of pork loins, 15,000 pounds of veal, 10,000 pounds each of frankfurter sausages, bologna and pork sausages, 5,000 pounds of head cheese and 40,000 pounds of chipped beef.

The output of all the vineyards of the world is estimated to be 3,554,416,000 gallons.

The gypsies of Granada, Spain, are unique among the race as cave dwellers, living in recesses hollowed out of a hillside not far from the city.

VERY SIMPLE TEST

To Find If the Kidneys are Inactive, and How to Cure Them at Home.

There are more cases of kidney trouble here now than ever before, while recent reports show that more people succumb each year to some form of kidney disease than any other cause.

When there is sickness, examine the urine. Rheumatism is only a symptom of kidney trouble. It is nothing more or less than excessive uric acid in the blood, which the sluggish, inactive kidneys have failed to sift out, leaving it to decompose and settle about the joints and muscles, causing intense suffering; frequently resulting in deformity; often reaching the heart when death ensues.

Pains across the back, frequent painful and suppressed urination and other symptoms of weak bladder are not the only signs of kidney trouble; many cases of stomach disease, head ache, pain in the heart, inactive liver, etc., are but symptoms; the cause of which can be traced to feeble, clogged kidneys.

A simple test of the urine is to void a small quantity in a bottle or glass and let it stand over night next morning, if there is a reddish brick-dust sediment, or white, fleecy substance present either consult some reputable physician or take a good vegetable treatment. The following prescription is recommended highly in these cases, and the sufferer should mix it at home Compound Kargon, one ounce; Fluid Extract Dandelion, one-half ounce; Compound Syrup Sarsaparilla, three ounces. Shake well and use in teaspoonful doses after each meal and at bedtime.

Where any of the symptoms enumerated above are present, good results are sure to follow immediately, the use of this simple prescription.

ALL READY FOR CLEVELAND BATTLE

President Morton has announced that the members of the National board of arbitration will meet the O. and P. directors in Cleveland January 7 at which time it is hoped the O. and P. muddle can be cleaned up and a redistricting proposition adopted that will please all clubs. Newark fans are anxious to know what disposition will be made of the Newark club and whether we will be in the proposed new league in the Eastern end of the state or whether we will be a part of the one in the southwestern end. The local officials are mum as to their intentions beyond stating that we will be well cared for and will be found in fast company next season.

It is well known that there is a great deal of conniving going on all over the district and secret meetings of club owners and managers are of daily occurrence. Each club wants to name the towns which will figure in the redistricting, but we are assured of one thing and that is that Newark holds the key to the situation and is going to cut a very important figure in the Cleveland love fest. We owe allegiance to no one. We have not forgotten the attitude of Mansfield, Lancaster and Marion when Newark wished to join the O. P. They looked upon us with disfavor, but we have proven that we are a better ball town than either one of those cities and consequently we are not in duty bound to accede to any of their requests or demands.

President Stasel, Manager Maurath, Secretary Hopkins, Manager Berryhill and probably several of the directors and stockholders will in all likelihood attend the Cleveland meeting and these gentlemen will look after our interests and see to it that we do not get the hot end of the poker.

BOARD MEMBERS TO ATTEND.

Akron, Dec. 4.—That the Ohio and Pennsylvania baseball league, and possibly the Central and Pennsylvania, Ohio and Maryland, will be redistricted before the winter is more than a month further advanced, was indicated Tuesday when President Charles Morton of the O. P., announced that he had summoned the members of the national board of arbitrators to meet the O. P. directors in Cleveland January 7.

The members of the board have agreed to be present and the proposition, which now seems the most probable, to be submitted for ratification, is that a six club O. P. circuit be

formed including Akron, Canton, Youngstown, Sharon, New Castle and Erie.

ASHER WILL BE THERE.

Toledo, Dec. 4.—President Armour of the Toledo club said yesterday that he would pack off 37 players to the spring training camp at Chattanooga and that there will be two infielders, now owned by major clubs in the lot. This squad will be one of the largest ever taken south by any club and surely the biggest one ever assembled under a minor league's control.

CLEVELAND SELLS DELEHANTY.

Cleveland, Dec. 4.—Frank Delehanty, the outfielder whom the Cleveland club secured from New York and then had to bench because of a wrangle over fines, has been sold to New Orleans. He will report in the spring. Just what the club received for him is not made known.

PROTECTION OF QUAIL

Sportsmen Join in Movement That Would Increase the Supply of Game Birds.

A movement is on foot among Ohio sportsmen to have quail in the state protected by the passage of a bill at the coming session of the legislature to provide a closed season on these game birds for a period of one or two years, the exact length of time not yet having been determined upon.

In speaking of this matter, Monday afternoon, General Speaks, state game warden, said: "From various parts of the state for some time past sportsmen, and others interested in the preservation of game birds, have been urging that a closed period, say of two years, should be provided by law. While I do not believe that the Fish and Game commission will have any bill introduced making this provision, it is very likely that other interests will have the measure before the legislature."

While in some parts of the state, particularly the southeastern, quail have been plentiful during the season just ending, in other sections they have been scarce. Sportsmen believe that the birds can be preserved only by providing a closed season.

In connection with this movement to protect quail, there will possibly be an attempt to have the closed season on pheasants which ends next November, continued for another year or two.

SENSATION

CAUSED BY DISAPPEARANCE OF A COMMISSION MERCHANT FROM THE CITY.

E. M. Humphrey Has Left Town, Leaving a Wife and Numerous Creditors Behind.

Considerable of a sensation was sprung here Wednesday when it was learned that M. E. M. Humphrey, a well known commission merchant of this city, had quietly taken his departure from the city, leaving a young wife and numerous creditors behind him.

Some two years ago Humphrey came to Newark from Columbus and engaged in the wholesale fruit and produce business, conducting his business at 51 South Second street, near the canal. For some time after coming to Newark business prospered with him and apparently he was living happily with his wife. To a close friend, however, he said that "he had become entangled in the meshes of a net thrown out by a woman of this city, and that he was living in h—." He also said "that things had come to such a pass that he thought that it would be for the best interests of all concerned if he left the city." He accordingly disposed of his stock of goods at a sacrifice, and a little over one week ago left the city, stating that he was going to California.

GOOD BLOOD
NATURE'S PROTECTION AGAINST DISEASE

The preservation of health and prevention against disease is almost entirely dependent upon pure, healthy blood; every organ, tissue, nerve and sinew of the body draws on this vital fluid for nourishment and strength. Poisons, humors and germs from various sources often get into the blood, and then this great life-stream becomes a source of infection and disease. Instead of a nourishing, health-sustaining fluid, Heredity is likewise an important factor, relating the quality of the blood. Some persons are born with tainted blood from diseased ancestry, and Scrofula in one of its numerous forms is sure to crop out some time in life. Not only poisons in the blood are responsible for disease, but when the circulation is run down and becomes poor and weak in quality, then we see the effect in a general bad condition of health, such as weakness, sallow complexions, boils, and various skin eruptions. All blood troubles require a tonic and blood purifier, and none other equals S. S. S. It goes down to the very foundation of the trouble, and removes every particle of the poison or impurity from the blood. And not only does S. S. S. antidote the poisons, humors and germs, but it possesses health-giving, tonic properties, which build up and strengthen weak, impoverished blood, and fortifies the system against

EARLY HISTORY OF NEWARK

No town could have been better supplied with trades than was Newark at date of this writing, 1818. To enumerate some of them we may mention three tanneries: Davidson's and Taylor's on West Main street, and Darlington's in the northern part of town. Judge Davis, whose shop was on West Main street, continued for many years to supply the town and country with the large and small wheel and the reel. Major Downey continued this business for several years afterward. There were also carpenter, wagon, cabinet, shoe, tailor, blacksmith, silversmith, and cooper shops, together with the pump and saddle-tree, business, tombstone cutting, the pottery, chair factory, the hat shops and gunsmith. The hat business seemed to be the most important of all trades, as three hat shops continued for many years to do a thriving business. These were Nathan Cunningham's, on the south-west corner of Third and Canal streets, Stephen Gill's, on the north side of the public square, and Gill & Cully's, at the east end of East Main street. Four different grades of hats were then in vogue: the wool hat costing one dollar, the rosin, napped with con fur, two dollars, the castor, napped with mink and muskrat, three dollars, and the big bell-crowned beaver costing five or six dollars. This latter kind was worn only by the wealthy, such as lawyers, doctors, preachers, and occasionally a rich farmer. After the completion of the Ohio canal, hats so numerous and cheap were brought from New York that the Newark hatters were obliged to abandon the business. Stephen and James Gill and Thomas Cully, after doing a prosperous business for many years, sold out and became farmers.

The greater number of shops were to be found on East Main street. On the present site of Lewin's residence was the cooper shop of Laughlin Kennedy; eastward on the same side were the cabinet shop of Leonard Goodrich, the blacksmith shop of Henry Shurtz, and the hat shop of Gill & Cully. On the opposite side of the street stood a remarkable hewed-log building, occupied at one time by a family, afterwards at different times by various tradesmen. Here at one time was the chair factory of John Atherton; at another the cabinet shop of Leonard Goodrich; the harness shop of Captain Owens, and his brother, a painter. This, also, for several years was the saddle-tree shop of Eli Wigal, who also conducted the business of pump-making, boring a huge log with an immense auger. On the site of the late Col. Sherwood's residence was the pottery of Peter Brakebill.

A rigid system of apprenticeship existed in those times. An apprentice was bound for a term of five or seven years. For his service during this time he received the liberal compensation of board, very plain clothing, three months' schooling, and a freedom suit at the close of the term. In consequence of the rapid invention of machinery, nearly all these trades have become obsolete; in fact, I have known many young men who faithfully served the term of their apprenticeship and never afterward worked at their trade.

Of little less importance than the hat business was the gunsmith. Charles Miller, who emigrated from Hardy county, Virginia, and owned a farm in what is now East Newark. In a log shop, together with his two eldest sons, Enoch and John, he conducted for many years the business of rifle-making. Miller manufactured every part of the rifle, lock, stock and barrel, even the brass and silver mountings. Hunting at that time was the employment or amusement of almost every one. Game of every description was abundant in the early settlement of the county. The shot-gun was an article not much respected by the pioneers; this was principally used by boys, and a better hunting ground for this purpose could not be found in the state than a tract of land comprising about a hundred and fifty acres belonging to William

Stanbery, (the present Roe farm), about one mile east of Newark, just beyond the corporation limits of the city, in Madison township. The tract was covered with a dense growth of hazel, jack-oak, haw, sumac, crab-apple and plum. This was the favorite resort of the town people for gathering hazel nuts and plums. In no other part of the state could there be found such an abundance of plums of different varieties, and of such excellent quality. The ground under the trees was literally covered with them yearly, half of them going to waste. Up to the year 1830 the thicket was the greatest rabbit warren to be found in the state. Rabbits were to be found there by the hundred. The hatters of the town were mainly supplied with fur from this place. Here, also, were to be found a great number of pheasants, a species of game which has in great measure disappeared from the country. They were also to be found in this thicket squirrels and quail in great numbers, and not a few opossums. During the great squirrel season of 1820 the lane between Newark and Madison township, running from the Zanesville road south to the Licking river, about a mile in length, was the great resort for killing squirrels. Hundreds of squirrels were killed that year with clubs. Troops of men and boys might be seen daily coming into town loaded with squirrels.

SHE BOUGHT DRESS HERE IN NEWARK

A Few Words Spoken at Right Time Made Convert to Home Dressing. A True Story.

I was spending the evening at the home of a Newark friend the other day when I overheard my host's eldest daughter remark to one of the party:

"I'm going over to Columbus in the morning. Papa has given me the money and I'm going to buy a dress, a pretty hat and some Christmas things."

As soon as opportunity offered, I walked with this pretty miss something after this fashion:

"My dear Miss —, so you're going to the city tomorrow on a shopping tour?"

"Yes," was the reply, "I intend to run over to buy a few things."

"Your father lives in Newark, earns his money in Newark and depends upon people here for his success, doesn't he?"

"Yes, of course, but why do you ask?"

"Suppose every other person in town should do what you say you are going to do tomorrow, how long would it before Newark would go backwards? How long would your father, depending as he does upon Newark patronage, continue to prosper? How long would he be able to provide you with money for these shopping tours?"

"Why, I never thought of that."

"Here is another thing you may not have thought of. The Newark stores can not only supply your every want but they can do it at less price. They are here to and behind their sales and if an article should not prove to be satisfactory they are here to make it right. Goods are cheaper than in a larger place and other expenses are correspondingly less. Newark dollars with the jobber and manufacturer go as far as anywhere and the Newark merchant buys as cheaply as his neighbor. He discounts his bills, just the same as he actually does sell and than the city dealer. The cheap goods are here now and beyond doubt. Go and buy your bill of goods. I'll be here in Newark and your father will have some of it back to you to spend again later on."

"I've thought of that already," was the quick reply. "You have said things I never thought of. I've changed my mind. I'm not going out of town. I'm going to buy here at home and am going to try to get others to do the same thing."

NEW FUNERAL CAR AND AMBULANCE

Messrs. Bowers & McCament, the well known North Fourth street undertakers, have just added to their already extensive equipment a handsome new silver gray funeral car, purchased from the Hiddle Hearshe and Coach company of Ravenna, Ohio, which is a beauty and it attracting considerable attention. The outside of the car is beautifully decorated in gold leaf, while the inside is lined with heavy silk and draperies of moiré cloth and silk fringe and tassels, and the panels are draped in solid carvings. In addition the car is supplied with nickel emblems of the different fraternities and religious orders of the city, and may be placed in the windows of the car when the deceased was a member of any of the organizations. In addition to the funeral car Messrs. Bowers & McCament have already purchased a handsome gray ambulance, the first one of the kind in Newark. Mr. Bowers was the first undertaker in Newark to secure an ambulance and was also the first one to use a flower wagon, and since joining hands with Mr. McCament in the business the new firm is letting nothing pass them that add to the efficiency of their equipment.

DYNAMITE

FOUND NEAR BUILDING ON WEST LOCUST STREET WEDNESDAY MORNING.

Officer Brooks Picked It Up and Threw It Into the Canal.—Police News.

Enough dynamite was found by the building occupied by the Spencer Feather Renovating shop at 275 1-2 West Locust street this morning to blow a good sized building into fragments. The discovery was made by Mr. Samuel Spencer, who found a stick and a half of the explosive when he went to open up. He immediately called the police department and Officer Brooks responded. Gingerly picking up the sticks of dynamite he carried them to headquarters, and later sank them in the canal. How the stuff happened to be there is not known. Twice the building, formerly used as a meat market, has been on fire and the finding of the heavy blasting powder may have some special significance. The grounds and the building will be thoroughly searched by the police to see if any more of the dangerous explosive is to be found. The shop is right in the residence district and but a short distance from the home of Mayor McCleery.

A young lad who had "gone south" with four rugs valued at \$4 from a furniture store, and through the medium of a friend tried to dispose of the articles to Mr. Bob Forgraves at a dollar each, made a full confession. Forgraves became suspicious and notified the police who for some time past have been searching for them. The boy will not be prosecuted.

Henry Krupp, who pleaded not guilty yesterday to violating the Sunday closing law and who was arrested for the sale of liquor in a wine room on Sunday, this morning changed his plea to that of guilty, and was fined \$25 and costs by Mayor McCleery.

Edward McDonald the shoe dealer, is minus a good chainless wheel, the result of leaving it in front of the Selter hotel for a short time last night. No one was seen to take the wheel but the police are working on the case.

AMUSEMENTS

THE GINGERBREAD MAN.

The book and lyrics of "The Gingerbread Man" to be presented at the Auditorium on Friday, December 6, are from the pen of the late Frederic Rankin, author of "The Chaplains," and many other great successes, the music by A. Baldwin Sloane, composer of many of the most popular and successful light operas of the present day. The scenes of "The Gingerbread Man" are laid in Santa Claus land, and at the border of the realms of King Bunn and King Sugar Plum. It is a great children's show for children of a larger and smaller growth and is really one of the most fascinating productions presented the American public in a long time. It is the only one of all the big extravaganzas on tour that appeals to children and grown people alike.

THE RIVALS COMING.

The company that will present Richard Sheridan's farce comedy "The Rivals," at the Auditorium on Thursday, December 12, is headed by Joseph Jefferson, Jr., who is to be the Sir Lucius, and William Winter Jefferson, who assumes the role made famous by the late Mr. Joseph Jefferson. These sons of an illustrious father will be supported by Theodore Hamilton, Eugene O'Brien, Richard Lyle, Roger Burnham, Blanche Bender, Roberta Brennan and Emilie Melville.

BROKEN HEARTS.

Govey & Taerka's beautiful play, "Broken Hearts," will hold the stage at the Auditorium Saturday afternoon and night. The play is one of heart interest, reaching the hearts of all. It has picturesque scenery which makes it a complete scenic production. It shows how a young country girl is enticed away from home by a city gentleman, who with his fine talk and clothes wins the girl temporarily; he fools her to his home in New York City, where he tries to compel her to marry him so he might obtain the fortune left her. His scheme however, is found out and his plans are unsuccessful as the young girl denounces him for the villain he is. Specialties are in the play.
